

# ANGULUS Imageshop

## Quick guide

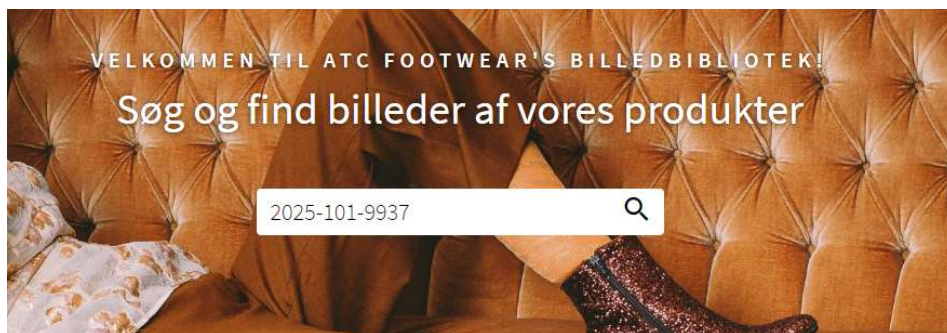

### 1. URL for the image bank:

<https://atcb2b.imageshop.no/560524>

Register as new user or resend your password.

### 2. Searching for images

To find an image in the image bank, type in the article number in the search box, e.g. "2025-101-9937" (please note the format), and press enter:

All images matching the article number will be displayed:

### 3.1 Downloading a few images

If you only need to download a few images, the images can easily be downloaded by clicking here:

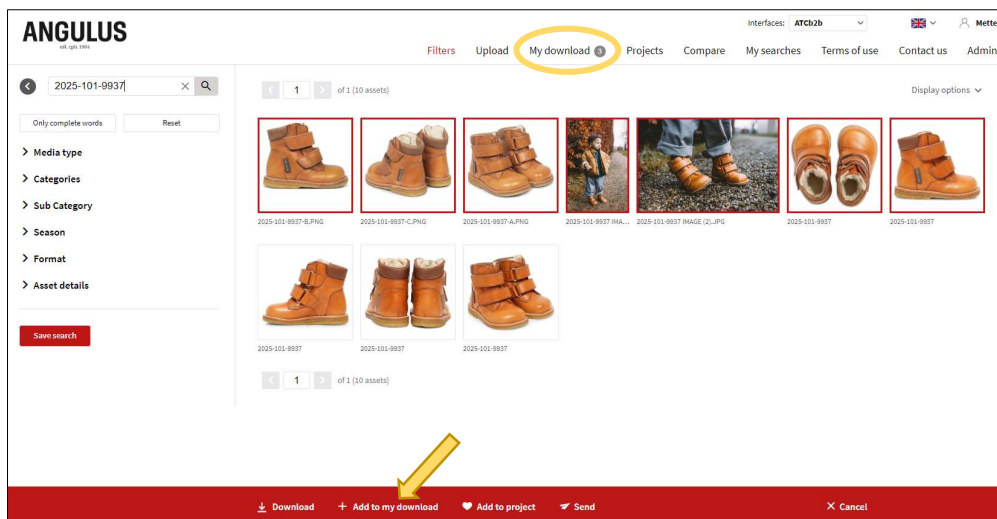

Select the format and press download. The image is ready for use and you do not need to do anything further.

### 3.2 Downloading many images

If you need to download many images, it is an advantage to add them to the basket and download them all in one go when you are done. You can add images to the basket by clicking +

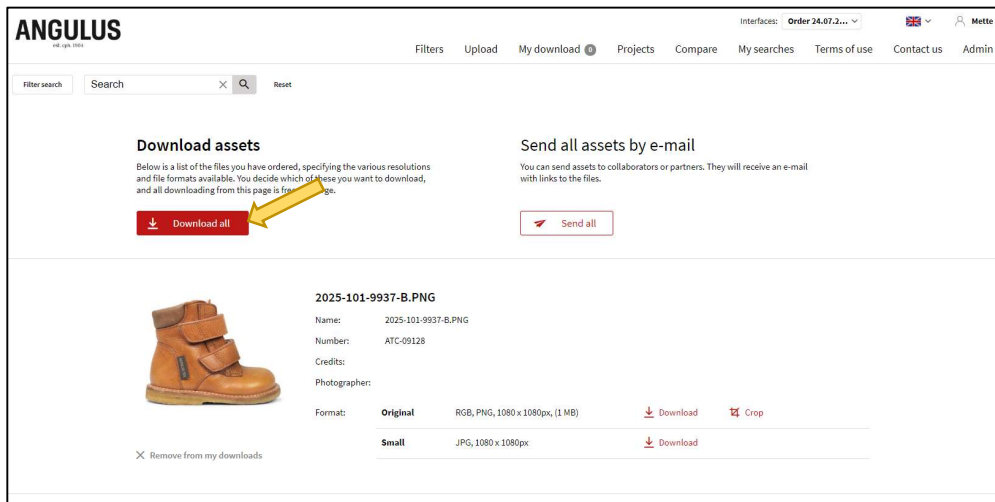

You can also add more images to the basket by holding down Ctrl + Alt while clicking on the images you want. Add to the basket by clicking "+ Add to my download" at the bottom.

#### 3.2.1 Download

Once you have found all the images you need, go to "My download" and click "Download all".

Select format and click download.

### 3.2.2 Extract the files

The files are downloaded as an archived zip file. Right-click on the file and select "Extract Here".

The images are unpacked in a new folder and are ready for use.

You will also receive an email with a link to the images.
